The American Typewriter

How a Young Computer Graphics Person Could Not Understand How to Use a Computer to Forge a Typewritten Document.

It's been some 30 years since we have used typewriters to produce documents. Computers have replaced the typewriter and given us great advantages in document preparation. There is no need to understand the old typewriter. Except when you need to forge a typewritten document.

A computer in the hands of a young person who can create a modern forgery is no match for the old style quirky mechanical typewriter. The forger who produced the Obama Hawaiian Long Form Health Department Birth Certificate may have thought that all typewriter typeface styles were alike. To get his letters he should have assumed that he needed only to match typewritten letters found in the old files of Hawaii birth certificates to scan ... copy and paste into his new document. Those old files should be all alike having been used to produce birth certificates in the 1961 era.

He must have understood that he needed to copy the old typewriter styles and would find them in the files.

But understanding scanners ... he also had to know that scanning a letter "t" one time and using it all over his document would be conviction assured. Because scan lines engage a letter differently every time it's done. So he scanned a bunch of old birth certificates and used a different "t" each time.

The mistake was that many of the letters in the old files were from different typewriter styles and that's something he did not realize ... resulting in many typewritten letters on his forgery that did not match each other.

I hope this helps to explain what might have happened with this document.

Every typewriter typed character is assigned a number in the order it is found in the document.

EVIDENCE OF FORGERY

The two capital letters “A”s are from the word “**BARACK**” on the birth certificate found at section 8 of the form. There is only one letter between them. Why then is #144 significantly bigger than #146 if the same type-writer key struck both?

Notice the other differences seen in the same word from different locations on the birth certificate. All the letters look different. Why?

The two capital letters “R” are from the same word “**BARACK**” as above and the other word “**BARACK**” in section 1 of the form. Why then is #3 significantly shorter and wider than #145 if the same typewriter key struck both? Note also the enclosed area in #145 is smaller than the enclosed area in #3 even though #145 is taller.

The two lower case letters “s” from the word “**Hospital**” in section 6c and “**University**” in section 12b are shown to be different because of the width of the letters. The lower case “s” #88 is wider than the lower case “s” in #198 as shown with the green and purple color bars shown under the letters.

The two numbers “2” are from “7:24” in section 5b and section 10 of the form. Why then is #40 significantly wider than #168? Notice also the difference in height of #168. Can you imagine how these two typewritten letters were typed with the same typewriter?

The two lower case letters “a” from the word “Male” found in section 2 and the word “Kapiolani” found in section 6c. Notice that the first “a” #23 is not as wide as #56. Also note the differences of the shape of the enclosed areas and the serifs at the top left of both.

The two lower case letters “i” from the word “University” in section 12b and “Kapiolani” in section 6c are shown to be different because of the dots over the letters. The dot in #199 is higher than that of #58 and shows more space over the letter. Also note the color bars indicating the difference in width between the letters.

The two capital letters “S” are from “HUSSEIN” in section 8 and “STANLEY” in section 13 of the form. Why then is #151 significantly more narrow than #201? Notice also the serif differences indicated with the arrows showing that the serif on #151 is placed further back to the left on the “S” than as shown on #201.

The two lower case “n” letters are different in size. #62 found in section 6c is much shorter than #193 found in section 12b. This is a good place to insert a photo of a typewriter key to remind us that the impression is struck by an engraved letter that is steel and incapable of changing size.

The two lower case letters “e” #25 from the word “Male” found in section 2 and the word “Maternity” found in section 6c show us that #25 is from a different design of type style with a tilting horizontal bar and #25 is also bigger in size.

The two lower case letters “u” from the word “Honolulu” #101 from section 6a and “Oahu” #105 from section 6b are shown to be different in width as indicated with the color bars above the letters. Also note the different design of the bottom part of the letters.

The two numbers “1” from the date “1961” #35 from section 5a and “18 Wichita” #225 from section 15 are shown to be different in width as indicated with the color bars below the letters. Also note the different design of the bottom part of the letters.

The Word “Student” found in section 12a of the birth certificate was the first problem I noticed because it was one word with two variations of the letter “t” and was clearly a different drawing of the letter mainly displaying a different extension at the bottoms of those letters. As a typographer I could see no reason for a

different style of letter within the same word. Other examples on the page seem to suggest that perhaps the form was transferred to different departments to fill out different sections ... but that could not happen with one word. Later study showed that too many of the letters on the birth cert.did not match each other ... even for many typist.

**If all the letters are from the same
typewriter ... why don't
they match? It appears that it
was put together with letters from
different sources
and this means it's a forgery!**

Dear Orly:

Affidavit

My name is Charles Ralph Coombs. I am 71 years old and working as a semi-retired entrepreneur. I currently reside at 1730 Valley View Lane, Apartment 1093, Irving, Texas 75061.

I have been working as an electronic typesetter in conjunction with every job I've held since 1980. I am currently using a desktop publisher to create and typeset all the information needed to start and advertise a business. Between 1976 and 1980, I sold typewriters for Olivetti Corporation. I acquired detailed knowledge of typewriters of the type I was selling and those of our competitors. Some of the typewriters I sold were to a degree self-correcting, and comparing them with competing brands gave me a detailed knowledge of the kind of errors typewriters and typists make and how to compare outputs from different machines.

Based on my professional knowledge and experience, I believe that the document presented as an electronic copy of the birth certificate of "Barak Hussein Obama" is a forgery.

By examination of the document, I find the following typographical inconsistencies:

1. There is a variation in size between two impressions of the same character. This is not possible in a document prepared on a standard (type basket) typewriter.
2. Spacing between letters is inconsistent. This is not possible in a document prepared on type-basket typewriter.
3. Some letter pairs are kerned: They are moved closer together to avoid white space between certain letter pairs in a desktop publisher. This is not possible in a document prepared on a standard, fixed-font typewriter. Some IBM typewriters featured a 1/2-point "pseudo kerning" feature, but the use of this was a laborious process and there is no evidence of the original document's having been produced on such a high-end, expensive machine.
4. There are typeface (character shape) mismatches in repeated occurrences of the same character. This is not possible in a document prepared on a type basket typewriter.
5. Only one instance of one character is slanted. Slanting occurred when a typist struck two keys at once, forcing them together. The slanting would occur as a consequence of the typist's forcibly returning the keys to their normal position. This, however, causes a permanent defect in all subsequent occurrences of this character that does not occur in this document. It cannot therefore have come from the typewriter used to create the original document.
6. Some characters appear above or below the baseline. This is possible with this kind of typewriter, but at the least would indicate that the document was removed and replaced: Simply moving rolling the platen up or down would not affect the line spacing to this degree.

I declare to the best of my knowledge and belief that the information herein is true, correct and complete.

AFFIDAVIT

I, the undersigned, being first duly sworn, do hereby state under oath and under penalty of perjury that the facts are true:

1. I am over the age of 18 and am a resident of Arizona. The information contained in this affidavit is based upon my own personal knowledge and, if called as a witness, could testify competently thereto. I am the duly elected Sheriff of Maricopa County, Arizona, and I have been a law enforcement officer and official, in both state and federal government, for 51 years.
2. In August of last year, a group of citizens from the Surprise Arizona Tea Party organization met with me in my office and presented a petition signed by approximately 250 residents of Maricopa County, asking if I would investigate the controversy surrounding President Barrack Obama’s birth certificate authenticity and his eligibility to serve as the President of the United States.
3. This group expressed its concern that, up until that point, no law enforcement agency in the country had ever gone on record indicating that they had either looked into this or that they were willing to do so, citing lack of resources and jurisdictional challenges.
4. The Maricopa County Sheriff’s Office is in a rather unique position. Under the Arizona Constitution and Arizona Revised Statutes, as the elected Sheriff of Maricopa County, I have the authority to request the aid of the volunteer posse, located in the county, to assist me in the execution of my duties. Having organized a volunteer posse of approximately 3,000 members, I, as the Sheriff of the Maricopa County Sheriff’s Office, can authorize an investigation go forward to answer these questions at virtually no expense to the tax payer.
5. The Cold Case posse agreed to undertake the investigation requested by the 250 citizens of Maricopa County. This posse consists of former police officers and attorneys who have worked investigating the controversy surrounding Barack Obama. The investigation mainly focused on the electronic document that was

presented as President Obama's long form birth certificate to the American people and to citizens of Maricopa County by the White House on April 27, 2011.

6. The investigation led to a closer examination of the procedures regarding the registration of births at the Hawaii Department of Health and various statements made by Hawaii government officials regarding the Obama birth controversy over the last five years.
7. Upon close examination of the evidence, it is my belief that forgery and fraud was likely committed in key identity documents including President Obama's long-form birth certificate, his Selective Service Registration card, and his Social Security number.
8. My investigators and I believe that President Obama's long-form birth certificate is a computer-generated document, was manufactured electronically, and that it did not originate in a paper format, as claimed by the White House. Most importantly, the "registrar's stamp" in the computer generated document released by the White House and posted on the White House website, may have been imported from another unknown source document. The effect of the stamp not being placed on the document pursuant to state and federal laws means that there is probable cause that the document is a forgery, and therefore, it cannot be used as a verification, legal or otherwise, of the date, place or circumstances of Barack Obama's birth.
9. The Cold Case Posse law enforcement investigation into Barack Obama's birth certificate and his eligibility to be president is on-going. The on-going nature of the investigation is due to additional information that has come to light since we held the press conference in March, 2012. As soon as that information has been properly verified by the Cold Case Posse, I will release that information to the public.

Executed this 12 day of June, 2012, in
Maricopa County, Arizona.

PLAINTIFF,

**PLAINTIFF’S EMERGENCY SECOND
MOTION FOR ORDER TO RELEASE
PRIVACY ACT-PROTECTED RECORDS AND
EXPEDITED CONSIDERATION BASED UPON
PRIMA FACIE EVIDENCE OF DESTRUCTION
OF EVIDENCE RELATED TO OBAMA’S
BIRTH**

VS.

YVETTE ALEXANDER, DON R. DINAN AND
WILLIAM LIGHTFOOT,

DEFENDANTS.

_____ /

Plaintiff, Montgomery Blair Sibley (“Sibley”), pursuant to 5 U.S.C. §552a(b)(11), moves this Court for an Expedited Order directing the National Archives Record Administration (“NARA”) to produce and release the original I-9 arrival records described herein which relate to the nationality of Barack Hussein Obama, II, and which NARA has claimed are documents protected by the Privacy Act of 1974 codified at 5 U.S.C. §552a, and (ii) for expedited consideration of this Motion and for grounds in support thereof states:

I. BACKGROUND

Sibley has served subpoenas duces tecum which seeks Mr. Obama’s: (i) Social Security number application, (ii) Selective Service number application, (iii) Passport application, (iv) Harvard Law School and Columbia University admission applications and (v) the originals of the two (2) Certificates of Live Births that he has publicly released. Attorneys have thrown up a number of procedural objections to allowing those records to be released which issues are pending resolution before this Court.

However, one set of records subpoenaed that Mr. Obama’s attorneys failed to block were

those kept by the National Archives Records Administration. The records released pursuant to that subpoena is troubling and raises legitimate concerns about Mr. Obama's past and thus his eligibility to be President under Article II of the Constitution.

Pursuant to a subpoena duces tecum, NARA made available to Sibley the "Arrival Records" for August 1 through August 10, 1961, of all passengers arriving in Honolulu, Hawaii. Sibley sought these records given the date of Obama's birth on his publicly-released Certificate of Live Birth of August 4, 1961 in Hawaii to see if he and/or his Mother arrived during that time-frame. If they did, it would prove that Mr. Obama was not born in the United States and as such is not a U.S. Citizen.

The significance of this "arrival form" evidenced can be seen from the arrival record of a three year old in Honolulu on August 8, 1961, a copy of which is attached hereto as Exhibit "A". That arrival record indicates the citizenship of the child.

What NARA produced on December 13, 2012, were two microfilm spools of the arrival records for July 28 through August 1, 1961 and August 8 through August 12, 1961. Attached hereto as Exhibit "B", is a photograph of the boxes those two microfilm spools are stored in which show the dates the spools cover. Even more significant, the date of "August 1" has been altered. It appears that "white-out" was applied and a new date was written over the original date of "August 7, 1961". Proof of that alteration comes from a photograph of the same box taken six months before on or about March 22, 2012 which reveals the date was originally "August 7, 1961". Thus, indisputably the box has been tampered with – a criminal offense.

Moreover, the microfilm of the July 28 spool ends on August 1, 1961 without the notice of "end of roll" that other microfilm spools evidence. Simply stated, someone appears to have tampered with the documents material to the question of the location of Obama's birth and altered NARA

records to conceal that alteration. The records for August 2 through August 7, 1961 are missing.

Title 5 U.S.C. §552a(b) “Conditions of Disclosure” states: “No agency shall disclose any record which is contained in a system of records by any means of communication to any person, or to another agency, except pursuant to a written request by, or with the prior written consent of, the individual to whom the record pertains, unless disclosure of the record would be . . . (11) pursuant to the order of a court of competent jurisdiction.”

Here, the “relevance” under Rule 26(b)(1) of the I-9 arrival records related to the birth of Barack Hussein Obama, II, are manifest as such records will reveal the “evidence of the U.S. nationality” of Barack Hussein Obama, II. That “evidence” will address the seminal question of whether Barack Hussein Obama, II, is indeed a “natural born Citizen” eligible – under Article II, §1, clause 5 of the United States Constitution – to be President. Upon such determination of ineligibility, the Defendants will be legally barred from casting their Twelfth Amendment votes for Barack Hussein Obama, II.

WHEREFORE, Plaintiff respectfully requests an order from this Court pursuant to 5 U.S.C. §552a(b)(11) directing the National Archives Record Administration to produce and release the original I-9 arrival records described herein. Given the evidence of tampering, Plaintiff respectfully requests expedited resolution of this Motion.

RULE 12.I(A) STATEMENT

The undersigned has consulted with Defendants’ counsel who has indicated that he **does/does not** oppose the relief requested herein.
